PROFESSIONAL WORK EXPERIENCE

CLS Generalist

Adventist Health Sonora (MedPro Healthcare Staffing International)

September 2022 – *present*

1. Process and analyze specimens across multiple laboratory disciplines, ensuring accuracy, precision, and regulatory compliance
2. Validate, interpret, and report test results while correlating findings with clinical data and identifying critical values requiring immediate physician notification
3. Oversee equipment maintenance, inventory management, and laboratory operations while mentoring staff and leading quality improvement initiatives

CLS Generalist (Part-time)

Sutter Health Memorial Medical Center

May 2024 – *present*

1. Execute precise laboratory procedures across all testing phases (pre-analytic, analytic, post-analytic) to ensure accurate and timely diagnostic results
2. Perform complex laboratory tasks including phlebotomy, specimen processing, quality control/quality assurance protocols, and high-complexity diagnostic testing
3. Maintain strict adherence to laboratory standards and regulatory compliance while supporting critical patient care decisions

Education

BSc in Medical Technology

2012 – 2016

Notre Dame of Marbel University (Philippines)

TECHNICAL SKILLS & EQUIPMENT

HEMATOLOGY | SYSMEX XN-9000, SP-10 slide maker, SYSMEX DI-60, Beckman Coulter Unicel DxH 600, Beckman Coulter Dxh 690T Scpio minised ESR, and Siemens hematek

COAGULATION | Platelet Function Assay, TEG 6s Hemostasis System, and STA Compact Max

BLOOD CHEMISTRY | Beckman coulter Unicel DxH 600i, Sysmex CS-2500, Model 3320 Osmometer, Tosoh G8 A1c analyzer, and WERFEN Top 550

SEROLOGY/IMMUNOLOGY | VIDAS 3, Access 2 and Hologic TLi

BLOOD BANKING | Grifols DG therm, Grifols DG spin, and Cell washer 2

CLINICAL MICROSCOPY | Aution Max AX-4030, DXU 840m Iris, and Clinitek 500

MICROBIOLOGY | Biofire, GeneXpert, Bacte/Alert 3D, Biofire GeneXpert and Bacte/Alert 3
